

PROBABLE TIME FOR ADJOURNMENT

CHIEF CLERK HOUSER FIXES IT APRIL 15TH.

The Lobby Greatly in Evidence About the Capitol—Bill Providing for Taxation of Express, Sleeping Cars, Etc., Favorably Reported by Judiciary Committee.

Madison, Wis., March 6.—April 15, is the date which Chief Clerk Houser, of the senate, now fixes as the probable time for the final adjournment of the legislature. If the work is finished by that date it will be a good record. Two years ago it was about the twentieth when the legislature adjourned and the session then began earlier than this year, to say nothing of the interruption of the senatorial contest at the opening of the present session.

The lobby has been much in evidence about the capitol during the past week. One of the strongest was from Milwaukee, and included ex-Governor Peck in its membership. Various Milwaukee measures were up before the committee in which the lobbyists were interested, for or against. Another section of the third house is made up of the insurance lobby, the committee having just begun consideration of some of the important insurance bills. Still another was composed of several old railway engineers and firemen supposed to have been sent by the companies to work against the Humphrey two-cent fare bill. Lobbying was strange business to most of them, and they all looked as though they wished they were back on their engines.

The action taken in the assembly in sending the anti-pass resolution back to a committee with an amendment prescribing forfeiture of office as the penalty for using a pass, was not taken entirely for the purpose of delay. The assembly railroad committee reported the amendment, and after some discussion on it it was sent to the judiciary committee to get a legal opinion as to its validity. If it is declared legal, the assembly is very liable to pass it. The same amendment was offered when the resolution was before the senate, and was strongly urged by Senator Dennett, who warned the senators when they killed it that the resolution would come back from across the hall with such a clause attached. Another amendment made to the resolution in the assembly authorizes the continuation of the practice of transporting national guardsmen for one cent a mile. Adjutant General Boardman points out that this would save the state about \$20,000 a year in transporting troops to and from camp. The same arguments holds good as to members of the state board of control and various other state officials who now travel on passes while on state duty, but whose fare the state would be obliged to pay under the anti-pass provisions. It is urged on the other side that the taxation of railroads will be increased sufficiently to more than offset all this, in answer to which it is argued that the taxation bills should be passed first.

The official bills, reported by the senate committee on assessment and collection of taxes in response to the recommendations of the governor's message, providing for the taxation of express, sleeping car, drawing room, and freight transportation companies on the value of their property, at the average rate of taxation, the same as other property is taxed, have been favorably reported by the judiciary committee and sent to engrossment and third reading in the senate. Various other bills on the same subject offered by different members are still in the hands of the committee and are likely to remain there. There is but little doubt but that the committee's bills will be enacted into law.

One of the most important matters which passed the senate the other week was the resolution for a constitutional amendment to provide for an inferior appellate court to relieve the supreme court of a portion of its burdens. The exact organization of the court is not provided for in the resolution which merely authorized the legislature to make such provision. The necessity of such a court is shown by the fact that the supreme court, with the justices working harder than any lawyer in the state, is unable to keep up with its calendar. It is now about two months behind, the first cases on the January calendar not being reached until about a week ago.

Tomorrow Senator McGillivray's patronage bill, for the division of the spoils among the counties according to population, comes up in the senate. It may possibly be sent to a third reading, just to encourage the effervescent statesman from Black River Falls, but when it comes to a final vote the voice of its author is likely to be a solo in its favor. Originality is Senator McGillivray's strong point and at every session at which he has been a member he has had at least two or three measures whose main purpose was evidently to cause discussion of themselves and their author. While the senator's figures in his argument for the bill presents some decided inequalities in the patronage among different counties, the situation is changed by the discovery, for instance, that in Dane county he has figured in

the state university as included in the state patronage, and each county where charitable or penal institutions or a normal school is located naturally shows an advantage over its neighbors.

TWO MUTES HAVE TROUBLE

Bert Snyder Says That Charles Huff Stole His Trunk

Bert Snyder, a deaf and dumb resident of Port Atkinson, arrived in the city this morning from Evansville for the purpose of securing a warrant for the arrest of a mute companion by the name of Charles Huff.

Snyder claims that Huff robbed him of a trunk valued at about eleven dollars. Several weeks ago, he says, Huff borrowed the trunk of him and since then has left Milton Junction, where he resided with a wife, taking the trunk with him, but leaving his wife behind. The warrant was not issued, for it is not known where Huff has located. Huff was recently in court here charged with deserting his wife.

YOUTHFUL ROBBERS

Robbers' Den Discovered By Fond du Lac Police—Lad of Fourteen Confesses.

Fond du Lac, March 6.—[Special]—The police have discovered a robbers' den under the postoffice sidewalk, and Horatio Tock, a lad of fourteen years, has been arrested and has confessed to the charge of burglary. Three other lads will be arrested today. Over \$20,000 worth of goods from merchants in buildings adjoining have been missed the past few months. An underground passage was dug out by the boys.

IS MOST SATISFACTORY

Such is the Condition of the Pope—No Further Bulletins Until Tomorrow.

Rome, March 6.—[Special]—The following bulletin of the pope's condition was issued this morning: The general and local condition of patient is most satisfactory. No further bulletins will therefore be issued until tomorrow evening.

WRECK ON PENNSYLVANIA.

Landslide Throws Another Train Before the Flyer—Two Men Killed.

Altoona, Pa., March 6.—The Pennsylvania newspaper flyer, due here at 7:55 a. m., was wrecked thirty miles east of this city at 7 o'clock Sunday morning by a landslide at Ardenheim. Two of the train crew were killed and two injured, and twenty cars and three locomotives were broken up. The thirty passengers on the flyer escaped almost without a scratch. The dead and injured are: Engineer Robert McOutcheon, Harrisburg, killed; Fireman G. C. Treatle, Harrisburg, killed; Express Messenger Jacob Motter, Harrisburg, probably fatally crushed; Baggage-master L. T. Van Aman, Harrisburg, scalp wounds. The flyer left Harrisburg twelve minutes late and was making a good sixty miles per hour when the accident occurred. The Pennsylvania has four tracks at this point. On one west-bound track a freight train was pulling a little ahead of the passenger train, which was on the adjoining west track. Another freight train was coming east on No. 3 track. The three trains entered a cut about the same time. When about half way through the west-bound freight piled into a landslide, which had probably occurred but a few moments before. The locomotive and eight cars of the freight were piled over on the track in front of the flyer. The engineer of the passenger train had but time to reverse his engine when he plunged into the grinding wreckage to death. Almost simultaneously the east-bound freight piled into the landslide at the other side. The passenger train plowed deep into the wreck. The express engine reared upon its side, crushing the engineer and fireman to death. The two express cars behind the locomotive were smashed to kindling wood.

CUBANS COMPLAIN OF HUNGER.

Situation at Santiago Becoming Serious for Military Authorities.

Santiago de Cuba, March 6.—El Porvenir, discussing the situation brought about by the orders from Havana limiting the total expenditure upon the departments of the provincial administration to \$10,000, says: "There is only one course open to men who are without work and food, namely, to become bandits. Hunger demands bread. The proceedings of the United States authorities at Havana are evidently antagonistic to Maj.-Gen. Wood, which is born of jealousy of his success and popularity among all classes of Cubans. Three thousand men have been thrown out of employment at only a day's notice, which must mean a serious menace to public peace and property." The Independencia, El Cubano and the Santiago Herald comment in much the same strain.

POWDER MAGAZINE VICTIMS' FUNERAL

WILL BE HELD AT TOULON, FRANCE, TOMORROW.

The Papers of Toulon Claim That the Explosion Was Due to Foul Play, While Experts Say It Was Caused by Spontaneous Combustion.

Toulon, France, March 6.—[Special]—The funeral of the late victims of the powder magazine explosion, will be held here tomorrow. The local papers say that the explosion was due to foul play, while experts say it was caused by spontaneous combustion.

Toulon, March 6.—Great loss of life and property was occasioned by an explosion in naval magazine No. 1 at La Goubiran, between La Seyne and Toulon, at 2:30 o'clock Sunday morning.

By noon thirty-two bodies had been recovered from the debris of the wrecked buildings in the village; and by 3 o'clock this number had been swelled to sixty.

Some of the victims are supposed to have been blown to atoms, while others are believed to have been carried into the sea and drowned. The injured number 110 and many of these are seriously hurt.

The magazine contained 50,000 kilos (about 100,000 pounds) of black powder. The disaster occurred soon after the change of guard, which consisted of a corporal and six men. Four of these were killed outright and the others were terribly injured. Some estimates place the number of killed at seventy.

The entire city is in mourning. Flags bound with crepe have been placed at half-mast. M. Lockrey, minister of marine, as soon as he was informed of the accident, telegraphed to the maritime prefect here to set aside a considerable sum of money for the relief of the sufferers.

The explosion is supposed to have been caused by chemical decomposition in a box of smokeless powder.

No. 2 magazine, close by, escaped with slight damage. The direction of the explosion was northerly and its force was terrific. The report was heard as far away as Nice, about seventy-five miles distant across country. The magazine was reduced to a shapeless mass, neighboring houses were razed to the ground, trees were torn up by their roots and their branches blown off and the fields were covered with stones and fine dust. Signs of the explosion are visible for miles about. In St. Jean de Var, five miles distant, windows were shattered and doors knocked in.

It is said that several carriages which were passing the magazine at the time of the explosion were, with their occupants, thrown into the sea. Before the explosion occurred the sky was clear, but shortly after rain began to fall.

President Loubet and Prime Minister Dupuy have each sent a contribution of 500 francs for the relief of the sufferers. M. Lockrey has forwarded 10,000 francs.

Chicago, March 6.—[Special]—Forecast for Wisconsin: Fair and warmer tonight and Tuesday.

RECENTLY AND QUARTERMASTER

Cleveland, O., March 6.—A case of smallpox was discovered Sunday in a big downtown apartment house, in which nearly 400 people are living. The victim is an attorney and he was the roommate of Frederick L. Taft, assistant county commissioner. The sick man was sent to the smallpox hospital, while Mr. Taft was committed to the detention house, and all the inmates of the building were quarantined in the apartment house.

Glad to Receive the Flag.

Austin, Texas, March 6.—The house of the Texas legislature has adopted a resolution thanking the Indiana legislature for returning to the Texas Territory Rangers the company flag captured by an Indiana regiment from the rangers during the civil war. The resolution also invites the governor of Indiana and his staff and legislature to come to Texas and be honored guests.

SKIRMISH WITH THE ENEMY LAST NIGHT

SEVENTEEN OF THE ENEMY KILLED IN THE FIGHT.

Outposts of the Second Oregon and First Minnesota Took Part—Two Americans Wounded—Fight Resumed—Enemy's Object Was to Capture Waterworks.

Manila, March 6.—[Special]—There were seventeen of the enemy killed in a fight last night, in which outposts of the Second Oregon and First Nebraska took part. Two Americans were wounded. The fighting was resumed this morning. The apparent object of the Filipinos was to capture the waterworks located six miles from the city. The United States Philippine commissioners have established headquarters at the Malate, but will do nothing until Denby arrives. The remaining Spanish prisoners have embarked for their home.

Insurgents Were Dispersed.

Manila, March 6.—[Special]—The insurgents in the vicinity of the waterworks were dispersed this morning by Gen. King's brigade. Three members of Nebraska, two of Wisconsin, and two ambulance men were wounded. The enemy used two new cannons, but without effect.

Manila, March 6.—In the last two days there has been a very noticeable change in Manila for the better, probably due to the arrival of reinforcements for the American troops.

Outside the city there was desultory firing throughout the day, and at various points the sharpshooters were most annoying.

At San Pedro Macati the rebels are very active, erecting entrenchments in front of the position occupied by the Washington troops, although a two-gun battery of the Sixth artillery repeatedly shelled them.

Richest Gold Camp on Earth.

Colorado Springs, Colo., March 6.—Gold worth almost \$50,000,000 has been taken out of the mines in the Cripple Creek district in the eight years since the camp was located. These are official figures, and they make it clear that Cripple Creek is the greatest gold camp on earth. Big as the figures are, however, they only tell the beginning of the story. Each year thus far has shown an increase in the output, and this year from \$18,000,000 to \$20,000,000 of the shining yellow metal can be expected. And the figures will continue to increase.

Aims to Check Filibusters.

Washington, March 6.—The necessity of preventing filibustering expeditions is the cause of Admiral Dewey's asking that the department send him more vessels of light draught. On account of the number of Philippine islands the natives are able to transport from the Asiatic coast a large quantity of munitions of war in small schooners. Admiral Dewey wants a large number of warships at his disposal which can follow such vessels into shallow water.

Cities in Iowa Alarmed.

Dubuque, March 6.—Dubuque taxpayers have started agitation for a special session of the legislature to revise the special assessment laws. It is held that unless remedial legislation is promptly secured public improvements will be practically stopped, and that, moreover, many cities will have to pay bonds issued under the present defective law, although receiving no financial benefit therefrom.

CONFESSES TO MURDER

John Gilbert, of Emporia, Kansas, Will Hang for Murder of Wife and Four Children.

Emporia, Kansas, March 6.—[Special]—John Gilbert, who was arrested here on suspicion of murdering his wife and four children at Enterprise last week, confessed today. He said he first brained his infant daughter, and concluded that he might as well hang for all at once, so killed the remainder of his family.

"Hero of Dargal."

Piper Findlater, the "hero of Dargal," has again sprung into notoriety, this time in a suit for breach of promise, in which he is defendant. The plaintiff is Miss Mary Gallaty of Dundee, who wants \$5,000. In the meantime she is in a music hall in Dundee dancing in her wedding dress, with the wedding cake displayed on the stage.

Long Watch Chains.

Possessors of the long, plain, old-fashioned gold chains will be glad to hear that they can wear them now with the sanction of fashion. A long watch chain, with perhaps a bunch of charms, a gold buckle in the now common snake shape, and a simple brooch and earrings, are all the trinkets a Parisian elegante permits herself when walking in the street.

LIVERY PROPERTY SOLD

Will Davis Sells Out to Oscar Macy, of Beloit

Oscar F. Macy, of Beloit, has made the purchase of the Will Davis livery property on East Milwaukee street. The consideration was \$3,600. The purchased property embraces the two-story brick livery barn and land running from Milwaukee street to a rear alley. The barn is a well built structure and was erected by Mr. Davis. The new purchaser is chief of the Beloit fire department.

Says a Combine is Certain.

Wheeling, March 6.—President C. W. Franzheim of the Wheeling Pottery company says the pottery combine is not "busted" yet. The options on the various plants do not expire until April 1, and it is predicted that the combine will be an accomplished fact before that date.

A DEATH AT BELOIT

Miss Caryl Dixon, a Prominent Young Lady of That City, Dies of Nervous Prostration.

Beloit, Wis., March 6.—[Special]—Miss Caryl Dixon died at her home on School street yesterday at 8 o'clock. Miss Dixon was a member of the Junior class of the Beloit college until a few months ago when her father died. She became a teacher in the Strong school. Miss Dixon was a popular young lady in musical circles. She sang alto in a quartet in the Presbyterian church for some time. Her death is mourned by a large circle of friends in this city, as she was a favorite with all who knew her. She died of nervous prostration. Her father was the Rev. Julian Dixon, who died several months ago.

KASKASKIA SWEEP AWAY.

Historic Old Town Succumbs Wholly to Current of Mississippi River.

Nashville, Ill., March 6.—By another of those sudden shifts in the current so common to the waters of the Mississippi river almost all of what little remained of the historic town of old Kaskaskia—the first settlement in the Mississippi valley, the first capital of the state of Illinois and at one time the metropolis of the great middle west—was swept away Saturday.

All the historic old buildings, including Gov. Bond's mansion and the old state house, have tumbled into the river.

The remains of Berrien Menard, the first lieutenant-governor of the state, which rest in a broken vault of Italian marble, are close to the river's edge, and but a few days will elapse until the last trace of the old town is obliterated.

Dreyfus Is Suffering.

London, March 6.—A dispatch to the Daily Telegraph from Cayenne states that ex-Capt. REV. W. R. PALMER EXPLAINS MATTERS

UNITED BRETHREN IN CHRIST HIS THEME.

Outlines More Fully Recent Article in The Gazette in Reference to the Stewart Will Case—Superannuated Divines Not So Numerous as Stated—Other Points.

William R. Palmer, pastor of the Lima Circuit United Brethren church takes exception to a few of the statements made in the Gazette of recent issue relative to the Thomas Stewart will case, in which the superannuated ministers of the church of the United Brethren in Christ, were interested, which was tried in Judge Bennett's court, Feb. 17th, last. Following is Mr. Palmer's letter in full:

Editor of Gazette—In the Gazette of Feb. 25th, I noticed an article which purported to be an account of the Thomas Stewart will case, in which the superannuated ministers of the church of the United Brethren in Christ were interested, which was tried in Judge Bennett's court. I do not usually pay much attention to articles appearing in newspapers respecting our church, but the article in question contains so many misrepresentations that I feel it a duty that I owe to my church to reply. Some one who has a deep prejudice against the church, has not only willfully misrepresented the facts in the case, but has imposed upon the readers of the Gazette as well. The suit in question was brought to recover property, which had been willed by Thomas Stewart to the fund for superannuated preachers of the U. B. church. Mr. Stewart died in 1882. Mrs. Stewart was to have the use of property during her lifetime, however. After Mr. Stewart's death Mrs. Stewart tried to dispose of the property in order to prevent the provisions of the will being carried out at her death.

In order that the readers of the Gazette may understand why she did this, it will be necessary that I give a brief history of the trouble over the revision of the constitution of the church. The church in an early day had opposed secret societies and when the first constitution was adopted it contained an article forbidding its members from uniting with any secret society. After a time there came a change of sentiment in the matter on the part of many and debates sprang up in every part of the church over the question. It finally became such a bone of contention that the church deemed it wise to change the article somewhat, softening its tone, etc. Those who opposed it were called radicals and those who favored it were known as liberals. In 1885 a commission was appointed by the general conference of the church to revise the constitution of faith and the constitution. The reason for the revision of the constitution of faith being that it was silent or ambiguous upon some of the cardinal doctrines of the bible as held and believed in by the church. The commission, however, were to preserve, unchanged in substance, the then existing confession of faith so far as it was clear.

The reason for changing the constitution was to adopt its provisions more fully to the wants and conditions of the church in that and future time. The question of revision was submitted to the church to be voted upon in the manner provided by the constitution which provided that a two-thirds majority of the membership of the church should be secured for the amendment of the constitution before it could be amended. The time to take the vote was fixed for the month of November, 1888, (three years after). These three years were given to a discussion of the question of revision. Every member had abundant opportunity to inform themselves upon the question. The result of the vote was as follows: For the revised confession of faith, 51,070 against 3,310; for amended constitution, 50,685 against 3,659. The secrecy question was submitted also at that time and 46,994 voted to change the article in the constitution on that question, while 7,298 voted against. In the general conference of 1889 a vote was taken as required by the constitution and 110 members voted for revision and twenty against. After the results of the vote had been announced, Milton Wright, then a bishop in the church, and fourteen others, left the conference and going to an opera house, which had been previously engaged for the purpose, announced themselves the United Brethren

church and proceeded to expel from the church five bishops and the 115 members of the general conference who had not joined them in their secession from the church. The writer of the article stated that at this time 27,000 ministers withdrew. How could this be when in 1888, there were only 1,490 ministers in the entire church? In 1889, after the secession of Wright and others we find that there were 1,455 ministers still in the church, so that about thirty-five ministers withdrew and not 27,000. The question which Judge Bennett had to decide was which is the church of the United Brethren in Christ; the part that was represented by more than a two-thirds majority in the general conference of 1889 over the small handful of discontented spirits who withdrew? We claim that ours is the only United Brethren church in existence as the matter of revision was submitted to the church in the manner prescribed by the constitution of the church, and received the required two-thirds majority both of the membership of the church and the general conference. In this claim, we have been sustained by the supreme courts of the states of Pennsylvania, Ohio, Indiana, Illinois, Missouri and Oregon, and we hope very soon to have a decision from the supreme court of Wisconsin in our favor, to which the case in question has been carried.

After the revision of the constitution Mrs. Stewart became a radical and immediately set about to put the property in such shape that the U. B. church could not get hold of it. The amount involved in the litigation is about \$7,000.

The writer stated that there were about 235,000 superannuated ministers in the U. B. church and that there was a difference among them as to which ones were entitled to the property. There are not more than 50 superannuated ministers in the church and there is perfect harmony among them.

I think I have set this matter before The Gazette readers in its proper light and trust you will give this a publication as you did the other, as I feel that an injustice has been done our beloved church. Yours truly,

Wm. R. PALMER,
Pastor Lima Circuit U. B. church.

Footville.

Footville, March 6.—Grip and pneumonia are reaping a harvest in this section of the country this winter. Mrs. Webb Owen does not seem to improve very fast. Mrs. Mark Honeywell gains very slowly. MISS STEARNS ON PUBLIC LIBRARIES

AT CONGREGATIONAL CHURCH LAST EVENING.

Secretary of State Library Commission Delivers a Most Interesting Lecture on "Public Libraries as Centers of Public Happiness"—Church Well Filled.

Last evening, an appreciative audience it was that assembled at the Congregational church, to listen to the lecture by Miss Lottie J. Stearns, on "Public Libraries as Centers of Public Happiness."

After the opening of the meeting, Miss Stearns was introduced by Rev. R. C. Denison, pastor, who very generously gave up his pulpit for the occasion.

Miss Stearns' long connection with the library work, both as librarian of the public library at Milwaukee and secretary of the state library commission, has supplied her with a store of general information upon the subject which she imparted to her hearers in a manner to be thoroughly understood. She is certainly enraptured in her work, that of promulgating the blessings of public libraries, thus adding to the force of her arguments.

The earlier portion of her lecture was along the lines of public libraries; pointing out most vividly the grand work that is being accomplished in educating the poorer classes, also citing many such instances that have come before her personal observation. She gave her idea of a model library building, which should contain nothing, but the library and a lecture hall. She went into details minutely and in the course of her remarks said, "the little folks should not be forgotten." She also spoke of a new feature in public libraries, that of loaning pictures, as well as books, which is being taken advantage of among the poorer classes. The first library in the state to advance in this direction is at Menominee, Dunn county, Miss Stearns said: "It is practical in the woods of northern Wisconsin, it would also be practical a little further south."

She next spoke of the grand work that is being accomplished through the traveling libraries in the state.

"Three years ago," she said, "there was not one traveling library in Wisconsin; today there are 264 going about on their educational missions." The speaker paid a compliment to F. P. Stout and W. H. Bradley, wealthy lumbermen of Dunn and Lincoln counties, who have expended thousands of dollars on public and traveling libraries in their respective counties. Miss Stearns said that it was generally believed that these traveling libraries were receiving state aid, by appropriation, but such was not the case. Not one penny thus far has been contributed to their support by the state.

In closing her remarks, Miss Stearns said: "Janesville can rightly boast of her schools. Janesville can rightly boast of her churches, but to complete a grand trinity, a large appropriation should be dumped into your public library."

Miss Stearns is sincere, therefore she made no attempt at display and her attentive audience was well pleased with her remarks and it is to be hoped that her advice will be heeded by the citizens of Janesville.

THERE WERE MANY PRESENT

Rev. Kempton's Subject Was the Strange Story of Hawaii.

At the Baptist church yesterday morning, a large congregation greeted Rev. Kempton. His subject was "The Strange Story of Hawaii," or "How American Missionaries Gave a Christian Nation to the World." His text was in Isa. 9-2.

The great question before the American people is the one of expansion. Our possessions have increased from a very small area to a very large one. Let us think of one of our latest possessions. See what a marvelous change has taken place there in the last century. Captain Cook was the first white man to visit those islands a little over 100 years ago. The people were then savages of the lowest type. It was no uncommon thing for mothers to bury their own children, while yet alive. They worshiped hideous idols or the great volcanoes of the islands.

The first one who was the means of taking Christianity to that people was a dark skinned native who came here and was educated and then went up and down this land urging the people to take the gospel to them. He died here but many others were led to go there and do the work. When they got there they found that the idols had been burned and a nation was found without any religion.

They were permitted to land and remain one year if they would behave themselves. The first thing that they did was to teach them to read and write. Several were converted.

One of the queens of an island was converted and was the one who first defied the fire goddess in the crater of the greatest volcano of the earth. A great revival followed her heroic action. At one place there was a two years' camp meeting. Hundreds were truly saved, and in one day 2,400 sat down to the Lord's table.

They were faithful. Only one in sixty were amenable to church discipline. The largest church of the world was organized and supported. They were civilized and christianized, and are now earnest and consistent christians, giving hundreds of thousands of dollars for missionary work. Their standard of education is as high as any in the world. Today they are highly civilized. The annual income from these islands to this country is over a million dollars. Does it pay to send missionaries to heathen lands? Every year we are getting back more than the whole cost of the mis-

sionaries during those many years. In addition to this see the great spiritual and intellectual blessings that have come to the world. May God help us to see these things, and become more liberal supporters of foreign missions.

In the evening Mr. Kempton gave a very eloquent and earnest sermon on "The Blunder of a Governor."

LOCAL WEATHER PROPHECY

Young Man Here Says That He Has Mastered the Weather.

A well known First ward resident who has been studying the weather for several months past, hands The Gazette the following forecast for the month of March which pertains to this locality.

March is here and so is spring. The storm area about the fourth may cause cloudy or unsettled weather to the eighth or ninth. A slight storm area may bring rain around the twelfth, followed by rising temperature and remarkable fine spring weather. A slight storm area may bring a puff of wind around the nineteenth. Between the twenty-fifth and twenty-eighth will occur the greatest disturbance during the month, causing very high temperature which may be followed by one of the coldest days of the spring.

Grain-O Brings Relief

To the coffee drinker. Coffee drinking is a habit that is universally indulged in and almost as universally injurious. Have you tried Grain-O? It is almost like coffee, but the effects are just the opposite. Coffee excites the stomach and ruins the digestion, effects the heart and disturbs the whole nervous system. Grain-O tones up the stomach, aids digestion and strengthens the nerves. There is nothing but nourishment in Grain-O. It can't be otherwise. 15 and 25c per package.

Four Killed at Decatur, Ala.
Decatur, Ala., March 6.—A terrific storm of wind, hail and lightning struck this place Saturday night, doing great damage and causing the loss of four lives. The huge tower of the long-distance telephone company, 140 feet high, which carries the wires spanning the Tennessee river, was snapped like a reed. Several manufacturing plants are suspended on account of damage to buildings and machinery.

CLOSING HOURS OF CONGRESS.

After a Session Lasting from Friday Morning Adjournment Is Had.

Washington, March 6.—The fifty-fifth congress came to an end Saturday at 12:08 p. m., after a continuous session lasting from 11 o'clock Friday morning, a period of over twenty-five hours. The final agreement on the river and harbor bill containing the compromise on the Nicaragua canal was secured about 3:30 a. m.; the sundry civil, in which the house forced the senate to surrender the provision for the Pacific cable, about 6 o'clock; the District of Columbia, with the provision for sectarian institutions eliminated, about 7 o'clock; the deficiency at 8:30 and the final conference report upon the naval bill at about 9:30 a. m.

The important business had been virtually completed when the house recessed for an hour at 9:30 o'clock. All that remained was the enrollment of bills and the final ceremonies. At 10:30 o'clock the house reconvened. The closing scenes were of more than usual interest. After all the bills had been passed there followed the usual resolutions. That offered by Mr. Bailey, thanking Speaker Reed, and the remarks of the minority leader were of a character to lend a dramatic turn to the proceedings. The action of the house and the speaker's reply aroused the house and spectators to enthusiasm. After adjournment members and visitors joined in singing patriotic airs. Vice-President Hobart declared the senate of the fifty-fifth congress adjourned without day at 12:08 o'clock. The day of final adjournment broke with the senate in executive session disposing of a large number of nominations. When the doors were opened the deficiency bill was quickly passed, and then came the final and closing fight on the naval bill and the price of armor plate and for an armor-plate factory. This was finally over and the weary senators took a short recess.

Upon reassembling the senate went into executive session. When this was done only five minutes remained of the congress, but the hands of the clock were turned back ten minutes to give time for the usual complimentary resolutions and the address of the vice-president. President McKinley and his entire cabinet had come to the capitol and were in the president's room back of the senate chamber, where the various bills were hurried for signature. Finally the last big appropriation bill had received the president's approval and the senate quietly came to an end.

URGED TO STRIKE.

Local Miners' Unions in Illinois Favor the Action April 1.

Springfield, Ill., March 6.—Unable to reach an agreement as to the prices for mining coal in Illinois for the coming year, the joint convention of miners and operators adjourned Saturday afternoon until Tuesday. State and district officers of the miners immediately placed themselves in communication with the locals of the union and asked for an expression of opinion. From the locals, which held meetings Sunday, the universal reply is for a strike April 1 if the operators refuse to sign the scale presented by the miners. It is the opinion of the miners that the advance will be granted without a strike. Before the joint convention adjourned President Mitchell of the miners made a formal offer to arbitrate the difference, but this was not accepted. President Mitchell left for Indianapolis to be present at a scale meeting of miners and operators of the block district of Indiana.

Victims of Decatur Wreck.

Decatur, Ill., March 6.—Not until late Sunday morning did the Wabash railway officials obtain a list of the people injured Saturday evening in the collision of the Continental limited with a switch engine in the Decatur yards.

Those injured were:
Bafler, Mrs. Fred, Brooklyn, N. Y.; slightly injured.
Buttes, Mrs. M. A., New York city; slightly injured.
Jeffrey, Miss Maude, Springfield, Ill.; slightly injured.
Hayes, Lewis E., fireman; bruised.
Leonard, P. J., road foreman; bruised.
Moss, Mrs. G., New York city; slightly injured.
Sinn, Tillie, Kansas City; slightly injured.
Sweeney, Jerry, engineer; leg fractured.
Both engines were damaged. The engineer and fireman were taken to the hospital at Springfield.

Chicago Live Stock Market.

Chicago, March 4.—Only a few hundred cattle and sheep came for the closing trade this week and such few sold slowly, without change from values recently quoted. A big Saturday run of hogs went slowly at a big 5c below the average of Friday's sales. Receipts were estimated at 300 cattle, 25,000 hogs and 500 sheep, making 41,823 cattle, 184,328 hogs and 60,006 sheep for the week, against 44,815 cattle, 127,613 hogs and 59,044 sheep for the previous week and 46,097 cattle, 160,311 hogs and 82,563 sheep for the same week last year. Late sales of cattle have ranged close to the prices paid late last week, while hogs today sold 10@15c below the range one week ago today and sheep 10@15c below the closing range last week. Only moderate receipts are probable for the early trade the coming week, but the undertone of late trade has not been of kind that would establish confidence in the reliability of near-by markets.

No Truth in the Rumor.

Washington, March 6.—There is no truth in the story from Havana that Gen. Gomez was told if he would accept the \$3,000,000 for his disbanded troops they would be paid \$10,000,000 more and he guaranteed an election as first president. Congress would not authorize any such payment, and President McKinley would not think of such a thing as interfering with the local affairs of the island. When the Cubans establish their own government they can pension their troops if they feel so inclined.

Pope Is in Good Spirits.

Rome, March 6.—The pope, who was in excellent spirits on rising Sunday, desired the attendants in the ante-chamber to attend mass in his own room. The following bulletin was issued at 10 a. m.: "His holiness passed a quiet night, getting several hours' sleep. All the natural functions, the pulse and the temperature are normal. It has not been necessary to re-examine the wound." Dr. Lapponi hopes to be able to dispense with the bulleting altogether in the course of two or three days.

Hotel Occupants in Peril.

Scranton, Pa., March 6.—The lives of nearly 100 people were jeopardized by a fire in the Lackawanna Valley House block Sunday morning. The flames started in W. J. Weichel's jewelry store, on the ground floor, and communicated to the hotel apartments on the second, third and fourth floors. All the occupants of the hotel were taken out safely, but clad only in their night clothes. The loss will not exceed \$10,000.

Wants Pay for 48,000 Men.

Havana, March 6.—Gen. Gomez Saturday sent Gov.-Gen. Brooke, by Inspector-General Roloff of the Cuban army, a statement of the number of men in the army. It is understood that the total reaches 48,000, of which 32,000 are privates, 10,000 non-commissioned officers, and the rest commissioned officers, from major-generals to sub-lieutenants.

WOMEN WHO WORK.

St. Louis, Mo., Aug. 12.
Though only 19 years old, I suffered from pains and female troubles two years. Last spring I got so bad I had to quit work. I had to support myself, and could not afford a high-priced doctor. I got one bottle of Wine of Cardui and that made me feel better. Have now used several bottles and am well. My mother used the Wine for Change of Life and was greatly relieved.
MISS MARGARET WALSH.

WINE OF CARDUI

Many girls and women find it necessary to earn their own living in various kinds of employment. Their work is often so hard and confining that the health breaks down. Their delicate constitutions are unfitted for tiresome tasks. Weakness nearly always makes its appearance in the peculiarly delicate womanly organs. Constant standing on the feet, and coming and going at the beck of a superintendent or foreman, induces falling of the womb, leucorrhoea, headache and backache. The pay of women workers is often so notoriously small that when sickness comes they have no money to engage skillful physicians. To them Wine of Cardui is truly a blessing. It cures them of their ills at a small cost and they can act as their own physicians. No doctor can do as much for "female troubles" as Wine of Cardui.

Preliminary meetings and caucuses to elect
delegates to said convention will be held and
are hereby called as follows:
Preliminary meetings for the purpose of pro-
posing names to be voted for as delegates at
caucuses herein called will be held at the
places hereinafter mentioned, on the 13th day
of March, 1899, at 7:30 o'clock, p. m.
Caucuses for the purpose of electing dele-
gates to said convention will be held at the
following places on the 17th day of March, 1899
from four (4) o'clock to eight (8) o'clock p. m.:
City of Evansville, City Hall; City of Edgar-
ton, City Hall; City of Janesville: First ward, at

BLEEDING THE DRUG MEN.

In connection with the patent medi-
cine bill now before the legislature the
fact should be borne in mind that in
sixteen states bills of this character have
been laid before the legislatures. In
nine cases out of ten these bills are ac-
knowledged frankly to be "cherry
pickers" or "sand baggers." In each
case, however, they are entitled "pure
food bills," "pharmacy laws," "preser-
vation of public health statutes," etc.
Legitimate names and titles are used to
help through surreptitious clauses, de-
signed to give the blackmailer a chance.
As samples of the worst kind of
these bills, we might call attention, for
instance, to the one in the Kansas legisla-
ture now, which prescribes a fee of \$50
a month to be paid by the vendor of
any drug, or any person who shall by
writing or printing or in any other
method, to profess to cure or treat dis-
ease. That would mean to a firm put-
ting up five or six remedies a fee to the
state of Kansas of \$3,000 or \$4,000 a
year. In New Mexico it is not pro-
posed alone that the formula giving
the exact ingredients of the medicine
shall be put on the outside wrap-
per in English, but it must be put
there in Spanish also. In New York, if
a medicine happens to contain a small
modicum of poison, it must be put in a
certain colored bottle; while in Connecti-
cut it must be wrapped in a certain kind
of corrugated paper. In California, if
a druggist sells to any one any drug for
the treatment of any ailment, it shall be
regarded as practicing medicine and
shall suffer all the penalties of an ille-
gal practitioner. What is defined as a
poison in one state is modified before it
reaches another; and whereas in some
states well-known vegetable extracts
alone are allowed in household reme-
dies, in another if any mineral substance
is added it must be stated on the label.
These are only samples of the devices
of "strong arm" legislators who believe
that wholesale drug firms as well as
railroads can afford to pay for "protec-
tion."

In considering this legislation should
not some thought be given to the fact
that the complaint of injury from the
use of proprietary remedies is not in the
ratio of one in a hundred thousand peo-
ple who buy those remedies, and not in
ratio of one in one thousand of the com-
plaints, which come from doctors' pre-
scriptions wrongly written, wrongly
filled or wrongly taken?

The whole system of legislative inter-
ference is in the end a transparent fraud
urged in many cases by men who hope
to profit by blackmail or by those who
see in the compelling of each proprietor
to publish his formula an open door to
every man who desires to sell a substi-
tute for the genuine article by enabling
him to claim that his production is "just
the same" as the original.

Shakers Do Not Marry.

The Shakers do not marry at all,
and never have married. For increase
they depend solely upon converts from
among the world's people. These little
Shaker communities, which have
continued for more than 100 years
and which might seem to be the ideal
life of the new woman, gradually are
fading away. There are no known evi-
dences that strong men and women
are uniting with them to take the
places of their dying leaders.

Licensed to Wear Male Attire.

In Paris and the French provinces
there are ten women who are author-
ized by the prefect of police to wear
full masculine costume. Among them
are a lady artist, a bearded woman, a
female house painter and decorator, a
mannish-looking directress of a print-
ing office, and several others who have
obtained certificates to show that they
ought to discard the attire of their
own sex for that of the stronger and
sterner one. On the other hand, a
humble potato merchant in the sub-
urbs has been allowed to wear female
garments for reasons which satisfied
the prefecture of police.

To Drain Coal Field by Electricity.

One of the great coal fields of Eng-
land, some thirty-two square miles in
area has numerous pumps established
at many different points to pump out
the water. Now it is proposed to work
these pumps by electricity. They will
be so connected that at a single point
the necessary switching can be done
to throw them all into action at once.
There are fifty pumps in all. If the
project is successfully carried out it
will be one of the most striking appli-
cations of electric distribution and
control of power yet installed.

What About This Spring

Gentle Annie???

Of course you realize the fact that it will posi-

tively be necessary for you to make several

purchases to start the balmy spring time with.

Something about the house or kitchen. A

new Gasoline or Oil Stove, a new range, new

Kitchen Ware. You certainly ought to have

a new Bicycle. If you have one already that

was bought earlier than last season it is a cer-

tainty that when you know the great improve-

DEATH'S HAND LAID ON OLD AND YOUNG

HON. FENNER KIMBALL PASSES
AWAY AT 12:30.

His illness began nearly a year ago—After a week's suffering Mrs. Therese Sheldon is called to rest—Many homes are saddened.

After a ten days' illness, and conscious of the approaching end, for which he was fully resigned, Hon. Fenner Kimball breathed his last at 12:30 today at his home. He died as he had lived, surrounded by loved ones.

His sickness is believed to have been due to the effects of malarial fever contracted in Florida while there for his health a year ago. A widow, brother, sister and son survive. Both sister and brother live in Rhode Island, the brother being a successful and retired business man of Providence. The only son is Frank D. Kimball, of this city.

Mr. Kimball's last business connection was with the Thoroughgood Box

HON. FENNER KIMBALL.

Co., which he severed a year ago when he sold his half interest to his grandson, George K., and Henry Gagan.

Broad and liberal minded; singularly tolerant of the views of others, and as a man of exceptional integrity his mind was fresh and receptive unto his last days. His sunny disposition went out to all and especially to young men in the affairs of whom he was greatly interested. He was a man of broad information, a conscientious worker and a close student of affairs. He was greatly interested in music and was a charter member of the Bower City band and an active member during its most successful years.

Mr. Kimball was born in North Scituate, Rhode Island, on Oct. 6, 1822. He was a lineal descendant of Richard Kimball, who came to this country from Ipswich, England, in 1634, and settled in Massachusetts. A grandson of the latter settled in Johnston, Rhode Island, where marriages connected the Kimballs with direct descendants of Roger Williams.

The deceased enjoyed but limited advantages in education in his early days, for at the age of fourteen years he was employed in a cotton mill, where he remained until he was nineteen years of age after which he served apprenticeship in cabinet making. After two years of service he had an opportunity to go to Fall River, Mass., to work as carpenter. In the meantime his parents removed to East Greenwich, whither he also journeyed. There he continued in his chosen trade for eleven years.

In the spring of 1856 Mr. Kimball came to Rock county, purchasing a farm three miles south of Janesville, in the town of La Prairie. For nine successful years he lived the life of an agriculturist, at the end of which time he removed with his family to Janesville continuing to run his farm until 1868. Upon his arrival in this city he formed a partnership in the furniture and undertaking business with William B. Britton. In 1883 James Hall succeeded to Mr. Britton's interest and the firm was styled Kimball & Hall, the senior member's interest, however, being under the management of his son, Frank B.

Mr. Kimball cast his first vote for James K. Polk in 1844; but holding anti-slavery views, when the republican party was formed he joined its ranks. He faithfully served the public in various official capacities and represented his district in the state legislature in 1878 and again in 1896 when he was elected by an overwhelming majority. He was also a member of the county board for eighteen years, serving as chairman in 1889. During the building of the new county asylum he was chairman of the building committee, and his advice and counsel proved of great value in every stage of that undertaking.

Mr. Kimball was an active Mason and held high rank in the Knights Templar. He was constant in his attendance at lodge, and his last evening away from home was spent in Masonic Hall.

Funeral arrangements have not been completed, but will be announced tomorrow.

Mrs. Fred S. Sheldon, After a week of intense suffering Mrs. Laura Therese Sheldon closed her eyes in sleep early Sunday morning, at her home on Oakland avenue, Forest Park. The end came at 1:30.

Mrs. Sheldon was taken ill a week ago Sunday, and on Tuesday she was confined to her bed, the disease having developed as uric acid poisoning. It was believed she could not live through the night on Wednesday, but she rallied. For three days before her death, however she had been unconscious, and the attending physicians gave no hope of recovery. She gave birth to a child few days before her death, but the lit-

tle one never opened its eyes upon the light of day.

Mrs. Sheldon was the youngest daughter of Mr. and Mrs. Henry D. McKinney, and was twenty-eight years of age, being born November 19, 1870. United in marriage to Fred S. Sheldon, her home had been blessed by the advent of a baby boy, and there seemed no cloud to mar the perfect happiness of the young couple. All the surrounding circumstances make the shock of Death's coming seem the greater.

Besides a husband and eighteen-months' old boy, there survive a father and mother, a sister, Mrs. H. S. Sloan, of Edgerton, and a brother, Harry H. McKinney, of this city.

None ever knew Mrs. Sheldon but to love her. "She was a good friend," were the words that came to a hundred lips as the news of her death went abroad, and the words may be taken as a fair estimate of her character, for she was in a high degree a true friend and a most lovable woman. She had a helpful and buoyant temperament. Purely unselfish, and ever solicitous for the welfare of others, even to the last moment of consciousness, while the stars like torches were waving their welcome to heavenly rest she sweetly smiled her appreciation of the tender nursing administered by loving friends and attending physicians. Her loyalty to her friends and the sweetness and amiability of her disposition endeared her to a large circle who will mourn her premature death, and long will miss her hopeful and sunny presence.

"None knew her but to love her. None knew her but to praise."

Her dear friends have the sweet consolation of knowing that they will meet her again in that spirit land "beyond the cedars and the stars" where death shall never enter and friends shall never part.

In their deep sorrow the family of the deceased have the sincere sympathy of this community.

Funeral services will be held at 2 o'clock on Tuesday at the residence in Forest Park.

John O'Neill.

From St. Patrick's church at 9:30 o'clock this morning, funeral services were held over the remains of the late John O'Neill, Rev. E. M. McGinnity officiating. The pall bearers were John Cullen, John Kehoe, Charles Cullen, John Cullen, A. J. Rooney and Thomas Cullen. The interment took place in Mount Olivet cemetery.

Polly Ann Wetmore.

The funeral services of the late Polly Ann Wetmore were held from her late home, No. 57 Oakland avenue, Sunday afternoon at 1:30. Interment was at Emerald Grove.

Lester G. Van Galder.

The funeral of the late Lester G. Van Galder was held at 1:40 o'clock Sunday afternoon from the house, two miles southeast of Emerald Grove, and the interment was in the Turtleville cemetery.

Mrs. Marie Nagel.

Funeral services over the remains of the late Mrs. Marie Nagel were held from St. Mary's church this morning at 9:30 o'clock. Rev. William Goebel officiated and the interment was in Mount Olivet cemetery.

MISS JACKMAN PLAYED WELL

Wisconsin Girls Excelled Oak Park Ladies At Basket Ball.

Miss Marcia Jackman, of this city, took part in an exciting game of basket ball played at the state university at Madison Saturday afternoon, when the varsity girls defeated a girls' team from Oak Park, Ill., high school.

Miss Jackman played center for Wisconsin who won by a score of ten to five. The visitors were dressed in trim blue waists and skirts with the letters "O. P." in old gold at the breast. The Wisconsin misses wore the most approved bloomers, black, with stockings and collars of the college color, cardinal. Three hundred people witnessed the contest.

Novel Dramatic Effect.

One of the most interesting and novel effects in the new drama at the Princess, says the London Evening News, is the demonstration of mechanically produced hypnotism by means of the revolving crystal globe that gives its name to the piece. This globe, which is the latest invention of the French mesmerist, has such power that the actors and actresses on the stage have to exercise great care to keep their eyes away from it. There is no risk to the audience, as the globe is focused "up stage."

JOHN RYDER FOUND DEAD YESTERDAY

DIED FROM EXPOSURE WHILE
INTOXICATED.

Remains Discovered Yesterday Morning Near Edge of the River—Had Wandered Into the Water and on Reaching Shore Fell Helpless—Leaves Wife and Three Children.

John Ryder, of 158 South Franklin street, was found dead at 10 o'clock yesterday morning at the edge of the river in the rear of Thomas Kelly's home on South River street. Death was the result of exposure, the supposition being that the unfortunate man wandered into the river while intoxicated and then after reaching the shore fell helpless. When found, the body was lying face downward with outstretched hands, and his feet just touching edge of river. His cap was on and all of his clothing wet and frozen to in body so that it was necessary to cut the trousers and stockings in order to remove them. Chief Hogan and Officer Brown then took charge of the remains and they were removed to Nelson Bros. undertaking rooms and prepared for burial. Deceased leaves a wife and three small children in very poor circumstances.

Mr. and Mrs. Charles Young reside at 254 South River street, soon after midnight Saturday, Mrs. Young heard yells coming from the direction of the river near Holmes' street. She notified her husband at once, but as the yelling had stopped they thought nothing of it until the next morning. About 10 o'clock Sunday morning Mr. Young asked Thomas Kelly, a neighbor, if he had heard some one yelling near the river during the night. Mr. Kelly then walked to the edge of the river, and was surprised to discover the body of a dead man. The police were then notified, and the remains identified as those of John Ryder.

The sad news was then conveyed to the wife, and at the undertaking rooms she identified the remains.

Mrs. Ryder said that her husband was home to supper Saturday evening, and that after the evening meal he started up town to do some trading. While up town, it is supposed that Ryder became intoxicated and that in his effort to get home lost his way and walked into the river.

The body was found about four blocks from the Ryder homestead.

At 10 o'clock this morning, in Justice Patten's office, the coroner's jury was summoned and held an inquest.

Charles Young was the first witness. His testimony was in reference to finding the body.

Chief Hogan was the second witness called. He stated that he had known Ryder for about 20 years and that he knew that he was a drinking man at times and that he occasionally went on helpless sprees. He did not remember seeing him Saturday evening.

Dr. Buckmaster was the third witness. He testified to examining the body at the undertaking rooms and that no marks of violence were to be found.

Death he said was undoubtedly due to exhaustion and exposure caused after Ryder had emerged from the river and fallen helpless on the shore.

Decensed was about thirty-two years of age, and besides his wife, he leaves a father, a brother and two sisters.

Of late he has been employed at the L. B. Carle leaf tobacco warehouse, but is a mason by trade. He also worked at Janesville Machine Works at times as a painter.

The coroner's jury found that the deceased came to his death by having accidentally fallen into Rock river where the bank was steep and slippery and where he was unable to get up. The jurors were: J. B. McLean, John Brown, George Skinner, Dennis Morrissey, Frank Boylen and Clarence Hemmens.

MARRIED THIS AFTERNOON

Madden-Hayward, Nuptials Were Solemnized at Four O'clock.

At four o'clock this afternoon, Miss Maud Hayward, of this city, and A. S. Madden, of Chicago, were married at the home of the bride, 208 Center avenue, Rev. Robert C. Denison, pastor of the Congregational church, officiating. It was a very quiet affair owing to the recent death of the mother of the bride.

The ceremony was witnessed by only a few relatives and after the extending of most hearty congratulations a tempting repast was in order.

The bride has spent her life in Janesville and is a young lady, respected by all. She is a skilled musician and her friends here are numbered by the score. The groom for fifteen years has been connected with the wholesale Chicago firm of J. V. Farwell & Co., and is a young man held in the highest esteem. Mr. and Mrs. Madden will make Chicago their home and the best wishes of their many friends follow them from the Bower City.

Typical Mountain Wedding.

What is described as a "typical mountain wedding" took place near Batesville, Ga., a few days ago, when Miss Estelle Clements became Mrs. Ben Luthers. About 100 guests were present. A rejected suitor of Miss Clements was among the guests, conspicuous by a broad band of crepe worn on his arm. During the ceremony the jilted man and his sympathizers expressed their sense of bereavement by low, sorrowful moaning.

A Cromwellian Collector.

Sir Richard Tangye is an Englishman who has a "craze" about Cromwell and who has been collecting for twenty years a mass of portraits, books and other relics connected with the Commonwealth period. He has 400 framed engravings of that period, 200 of them being portraits of Cromwell. He has, moreover, 600 volumes relating to the Commonwealth, four Cromwell letters, several manuscripts of the time, and various letters written by Cromwell's sons. He also owns one of the three death masks of the great Protector.

Gordon's Mahdi Letter.

It seems almost incredible, says the London Saturday Review, but we have it on authority which it is really impossible to doubt, that a private soldier found in a street at Omdurman the letter which Gordon wrote to the Mahdi in answer to the demand for retreat or surrender. The letter has been examined by all the ablest experts, and is beyond doubt in Gordon's handwriting. We understand that it is now in the hands of the queen. As might be expected, all idea of surrender is scouted; the Mahdi is reminded of his evil doings, and his destruction at the hands of English soldiers is prophesied.

DIES AS RESULT OF TERRIBLE BURNS

CHILDREN WERE PLAYING
WITH MATCHES.

Four Year-Old Son of Mr. and Mrs. Frank Corwin, of 56 Race Street, the Victim—Burning Head of Match Ignited Undershirt and Night Gown.

After hours of terrible suffering, as the result of burns received last Saturday morning, little four-year-old Frankie Corwin, died last evening at the Race street home of his parents, Mr. and Mrs. Frank Corwin.

His demise was a blessing in one sense of the word for the little one suffered untold agony.

At about 8 o'clock Saturday morning, Master Frankie and his two little sisters were playing with matches soon after they had left their beds to dress.

One of the little girls on striking a match was horrified at seeing the burning head fly across the room and drop down her little brother's back, whose night gown and little undershirt at once ignited.

Mrs. Corwin at the time was in the chicken coop in the rear of the yard and hearing the screams of the children, rushed into the house only to find her boy enveloped in flames. The burning nightgown was quickly pulled from his body, but the cruel flames had got in their deadly work.

The little sufferer was made as comfortable as possible and Dr. E. F. Woods was called. It was found upon examination that about three-fourths of the poor little fellow's body was burned so that the flesh all came off. From the back of his neck down he was completely raw. His arms were burned, all his limbs. His breast and abdomen were about the only portions of the body that were not touched by the fire.

The heart broken parents have the sympathy of the entire community.

Besides his parents there are left to mourn his loss, two sisters and one brother; Mamie, Stella and Birney.

The funeral will be held from St. Patrick's church, Wednesday morning at 10 o'clock. Interment in Oak Hill cemetery.

BLIND GIRL WRITES POETRY

Daughter of Dr. and Mrs. H. A. Palmer Is Talented.

Miss Carrie Mae Palmer, sixteen year old daughter of Dr. and Mrs. H. A. Palmer, of Logan avenue, Forest park, sends the following poem to The Gazette.

The young lady is totally blind as the result of an accident received when she was three years of age.

The Angel's Visit.

I sat by an open window,
The breezes softly blew,
Heavily laden with fragrance
From the violets damp with dew.

I was musing there in silence,
When I heard a voice I heard!
The tones so low and silvery,
I uttered not a word.

"Oh maiden," said the angel,
For such he proved to be,
"Thou hast been blessed, I now am sent,
To tell thee thou art free."

"Thy God hath heard thy petition
For guidance in the way,
Go forth and labor, work for him,
He'll give thee strength today."

And then the angel went away,
I woke up from my dream;
Thank God, I said, I know 'tis true,
Though vision-like it seems.

FOR ARMY REORGANIZATION.

Plans Have Not Yet Been Entirely Perfected.

WAR DEPARTMENT IS BUSY.

Regiments of the Regular Army Will Be Brought Up to Their Full Strength Before Anything Else Is Done—Adj. Gen. Corbin to Be Promoted.

Washington, March 6.—While the plans of the war department for carrying into effect the provisions of the army reorganization bill for the increase of the regular establishment to 65,000 men have not been perfected, the conferences of Secretary Alger, Adj. Gen. Corbin and other officers have resulted in a determination to devote the energies of the service to filling up the infantry regiments at once. The plan is to enlist the regiments of the regular army to their full war strength before anything else is done, and in carrying out that plan the infantry is to receive attention first.

In pursuance of this policy the cavalry and artillery regiments will be skeletonized on the basis of their present strength, unless enlistments are so rapid that there will be no necessity of delaying the increase of these regiments to a war footing. The present demand is for infantry, as very little of the newly acquired territory of the United States is suitable for the movement of cavalry, and the artillery is needed at home to garrison the coast-defense posts. Nearly all the new recruits now being enlisted at army posts or who will be taken into the service at the recruiting stations which the war department intends to establish throughout the country will be assigned to the infantry. When the twenty-five infantry regiments have each received the war complement of 1,326 men the artillery and cavalry will be increased from skeleton formation to the maximum strength.

According to the understanding in army circles, it appears to be settled that Adj. Gen. Corbin, who has the rank of a brigadier-general, will be appointed one of the five additional major-generals of volunteers. It is said that the president is having an examination made to ascertain whether he can confer this honor on Gen. Corbin without relieving the latter from his duties of adjutant-general, as the president desires to retain him in that position.

Nobody—not even the president or Secretary Alger—can say at this time who will be appointed to the additional major-generalships and brigadier-generalships created by the reorganization law. A list of officers available for these places is on Secretary Alger's desk. With the name of each officer is a note in reference to his services and containing other information to assist the secretary in deciding on the recommendations he will make to the president.

Chamberlain's Cough Remedy
This remedy is intended especially for coughs, colds, croup, whooping cough and influenza. It has become famous for its cures of these diseases, over a large part of the civilized world. The most flattering testimonials have been received, giving account of its good works; of the aggravating and persistent coughs it has cured; of severe colds that have yielded promptly to its soothing effects; and of the dangerous attacks of croup it has cured, often saving the life of the child. The extensive use of it for whooping cough has shown that it robs that disease of all dangerous consequences. Sold by People's Drug Co.

If the Baby Be Cutting Teeth
Be sure and use the old and well tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle.

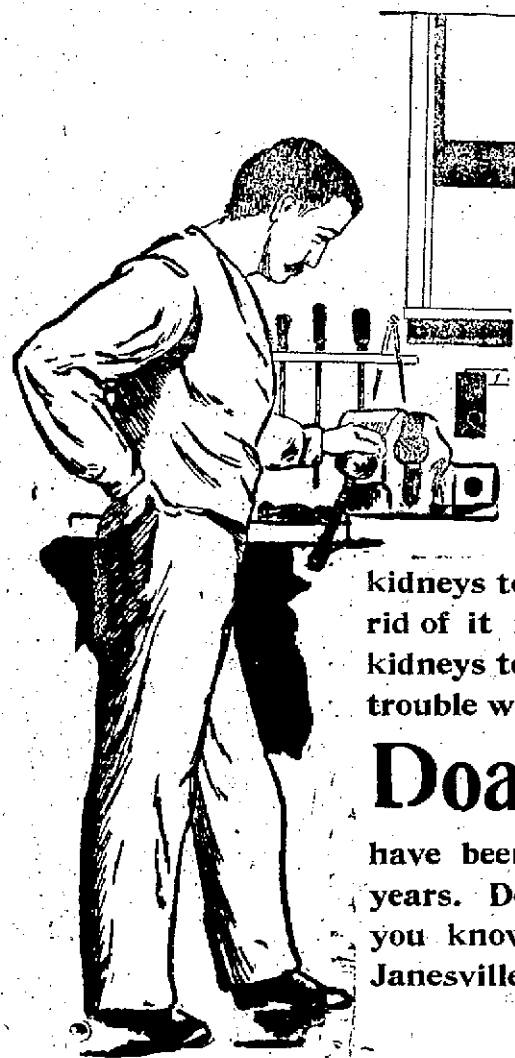

Carlists Becoming Active.
Madrid, March 6.—The Carlists are showing signs of reviving activity. A band of 2,000 deserters from the Spanish army is now gathered near the French frontier, refusing to return to Spain, although the men have been pardoned.

Rev. E. Edwards, pastor of the English Baptist church at Minersville, Pa., when suffering with rheumatism was advised to try Chamberlain's Pain Balm. He says: "A few applications of this liniment proved of great service to me. It subdued the inflammation and relieved the pain. Should any sufferer profit by giving Pain Balm a trial it will please me." For sale by People's Drug Co.

Blizzards Reign Out West.
Omaha, Neb., March 6.—Early Sunday morning another blizzard struck Nebraska and continued throughout the day. At Nebraska City three inches of snow fell and the mercury reached zero. Syracuse reports a sixty-mile-an-hour gale, with the mercury 7 degrees below zero. West Point sends a similar report. The temperature at Omaha was about zero at midnight last night.

I have been afflicted with rheumatism for fourteen years and nothing seemed to give any relief. I was able to be around all the time, but constantly suffering. I had tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did, and was immediately relieved and in a short time cured. I am happy to say that it has not since returned.—Josh. Edgar, Germantown, Cal. For sale by People's Drug Co.

A STITCH IN THE BACK

It's hard for a man to do his work well if he has a bad back—Hard for him to work at all—

But the work must be done—bread must be earned, and so thousands of workers plod along, accepting the backache as a matter of course, and only realizing the seriousness of it when it gets so bad that they can't drag themselves about any longer—

Yet it's all unnecessary—

You know what backache is—Kidney-ache, that's all—Just simply the natural result of the failure of the kidneys to do their duty—And the way to get rid of it is to set the kidneys right. Help the kidneys to do their duty and there'll be no more trouble with bad backs—

Doan's Kidney Pills

have been making weak kidneys strong for years. Doing it right here in Janesville. People you know say so. Read the following from a Janesville citizen:

Mr. A. F. Lee, of 51 Sharon St., carpenter, says:

"I can most strongly recommend Doan's Kidney Pills for kidney complaint. I think mine was contracted in the army where I served in Co. D, 2nd Wis. Inf. For the last twenty years it troubled me a great deal, many days I could hardly keep at my work, and by rights should have stood at home and doctored. It was seldom that my back did not ache, and I have been

completely laid up for three or four days at a stretch. When stooping or lifting sharp twinges penetrated the kidneys, the secretions from those organs were too frequent and accompanied by pain. I used all kinds of remedies but none gave permanent relief. Obtaining Doan's Kidney Pills at the People's Drug Co. I took them, and after the first three or four doses a noticeable change was brought about—I improved steadily from then on and on completing the treatment I was in good condition and am now well. I do not feel anything of the trouble now and consequently take pleasure in recommending the remedy which did so much for me."

THREE KILLED BY A STORM.

Two Persons Fatally and Eight Seriously Injured.

HAVOC IN A TENNESSEE TOWN.

Residence at Madisonville in Which a Party Was in Progress Wrecked by a Cyclone—Names of the Dead and Injured—Crops Badly Damaged.

Knoxville, Tenn., March 6.—Three persons were killed outright, two fatally and eight others seriously injured at Madisonville in a storm which raged in this section Saturday night.

The dead are:
EDWARD L. HORTON.
JOHN MOER.
MRS. JOHN MOER.

The fatally injured are:
Mrs. Edward L. Horton.
Miss Willie Irwin.

Those seriously injured are: R. A. Roberson, wife and 2-year-old child; Miss Della Mason, Miss Rogers, Chas. Pierce, Hugh Hicks and Professor Charles Kelley.

All were injured internally and badly bruised; except Miss Rogers, who was terribly cut with broken glass. The dead and injured are residents of Madisonville with the exception of Prof. Kelley, who resides at Athens, Tenn.

The home of Mr. and Mrs. Horton was the scene of a party which was in progress at the hour the storm raged. All the injured were at the Horton home except Mr. and Mrs. Roberson and child. The Horton and Roberson residences were demolished.

Moser, a brick mason, was carried seven hundred yards, when his head was severed from his body by contact with a wire fence. His wife was crushed to death beneath the timbers of their home. In the house with them was their little 12-year-old son, who escaped without a scratch. The stock barns of Franklin McGill were demolished and two horses were killed.

On account of the general tearing down of wires news of the disaster did not reach this city until Sunday evening. Madisonville, the capital of Monroe county, was the village upon which the force of the storm was spent.

The storm wrought havoc in the residence portion of the little city. Eight handsome houses were totally wrecked, others were more or less damaged. A handsome new school building, recently completed, was so injured as to make its reconstruction necessary. The woodworks plant of J. H. Burlesohn was almost totally demolished.

MILLIONS OF ACRES FOR SALE.

Auction of Lands by Union Pacific Railway at Omaha Today.

Omaha, Neb., March 6.—At 10 o'clock this morning, at the courthouse in this city, the Union Pacific Railway company began one of the heaviest auction sales of public lands ever held in the country. The lands aggregate 6,000,000 acres and are covered by the sinking fund mortgages given by the company Dec. 10, 1873, to the Union Trust company of New York as trustee. The lands are located in Nebraska, Wyoming, Colorado and Utah. The disposition of the property and confirmation of the sale will practically clean up all the financial difficulties of the road incurred previous to the taking control by the present management.

The number of acres and their location is approximately as follows: Nebraska, 1,107,758; Colorado, 842,534; Wyoming, 4,062,640, and Utah, 618,824.

Appropriations of Congress.

Washington, March 6.—The official statement of Representative Joseph G. Cannon of Illinois, chairman of the house appropriations committee, summing up the appropriations of the Fifty-fifth congress, shows an aggregate appropriation by the entire congress of \$1,566,890,016, and for the session just closed a total of \$673,658,400, with authority for contracts subject to future appropriations amounting to \$70,000,000.

Wool Concerns to Join Hands.

Philadelphia, Pa., March 6.—It seems to be generally anticipated in wool circles that the amalgamation of a number of the larger woolen manufacturing concerns of this city into a large company is a matter of the near future. This is expected to follow as a result of the recent formation in New York of the American Woolen association.

Are Fearful of the Indians.

Guthrie, O. T., March 6.—The Kiowa and Comanche Indians are boisterously drunk at the Darlington Indian agency. They received their annual grass money from the interior department during the last week, and for the first time in fifteen years are celebrating. White people near the agency are uneasy.

Solved by Italy.

London, March 6.—The Rome correspondent of the Daily News says: "The Italian warships have landed marines at San-Mun Bay, thus virtually taking possession. Italy will pay nearly £80,000 for the concession. The tsung-lyamen wishes to reduce the lease to fifty years."

Kipling Out of Danger.

New York, March 6.—Unless some unforeseen complication develops, which the doctors do not expect, Rudyard Kipling has won his battle with death and is now far advanced on his road to recovery.

IS IT A TRIFLE?

THAT COMMON TROUBLE, ACID DYSPEPSIA OR SOUR STOMACH.

Now Recognized as a Cause of Serious Disease.

Acid dyspepsia, commonly called heartburn or sour stomach, is a form of indigestion resulting from fermentation of the food. The stomach being too weak to digest it, the food remains until fermentation begins, filling the stomach with gas, and a bitter, sour, burning taste in the mouth is often present. This condition soon becomes chronic and being an every day occurrence is given but little attention. Because dyspepsia is not immediately fatal, many people do nothing for the trouble.

Within a recent period a remedy has been discovered prepared solely to cure dyspepsia and stomach troubles. It is known as Stuart's Dyspepsia Tablets, and is becoming rapidly used and prescribed as a radical cure for every form of dyspepsia.

Stuart's Dyspepsia Tablets have been placed before the public and are sold by all druggists for 50 cents per package. It is prepared by the P. A. Stuart Co., Marshall, Mich., and while it promptly and effectively restores a vigorous digestion, at the same time is perfectly harmless and will not injure the most delicate stomach, but, on the contrary by giving perfect digestion strengthens the stomach, improves the appetite and makes life worth living.

HEART FAILURE

has often been styled the cause of death in persons who have long lingered in disease. The amazing work which the heart regularly performs would certainly pre-suppose its breaking down. The most active climber can raise himself 1000 feet in an hour, the best locomotive 4000 feet and the heart 20,000 feet. To preserve its energies in full glow and force, Fabst Malt Extract, The "Best" Tonic, will act as an effective and practical

fuel. No steam without fire. No energy without food. No staying power without rich supplies of blood. The heart is the great engine of the body. Keep it going, steadily, easily, persistently, unto a ripe old age.

Philadelphia, Pa.

I have used your Malt Extract where a "Best" Tonic seemed to be indicated, and the results have proved quite satisfactory. Where a malt preparation is required, I shall not hesitate to suggest the use of your preparation.
